

Quarry Plant, Equipment and Processes

Introduction A basic introduction to quarry processes, plant, and equipment used in the industry.

Each industry has its own language, equipment, and processes. This webinar introduces the participant to quarry industry terms, equipment types, and the specific production processes used daily.

Duration 1 hour

Potential Participants Suitable for Sales Managers, Equipment Supplier Representatives, Trainee Quarry Managers, New Quarry Supervisors, Functional / Support Managers employed or seeking employment in the industry.

Topics Covered

1. What are the basic quarrying and extractive industry processes?
2. What equipment is used?
3. What is the difference between fixed and mobile equipment?
